Conclusions from the Docs

(Selection of 40 inconsistencies)

- Thomas Baron has a fatal accident one week before the hearing and his report disappears unrecognized?
- Starry sky image on the moon was impossible?
- Radio transmission faster than light?
- Ignoring Van Allen radiation in the media?
- Kodak films are immune to X-rays/overheating/cold shock?
- Moon rover TV as seen: impossible!
- Life support system discarded, flag flying without touching, no signs of landing?
